SUNDRY NOTICES AND REPORTS ON WELLS CONSERVATION COMMISSION

INSTRUCTIONS

Notice must be given to the Director, and approval obtained in advance of the time when the owner or operator expects to recomplete or abandon a well or to change plans. Within thirty (30) days after recompletion, change of plans, or remedial work, a detailed report of the work done and the results obtained shall be submitted on this form in duplicate for wells on Patented and Federal lands, and in triplicate for wells on State lands. In work that affects only rods, pumps or tubing or other routine work such as, but not limited to, cleaning out to previous total depth, no report is necessary.

(DETAILS OF WORK)

This well completed as a "D" sand producer in October 1958 pumping 95 BO and 16 BWPD. The decline of production was 17% per month until March of 1960 at which time formation was treated with B-10 Tretolite but did not increase production. Production at present is less than 4 BO and 23 BWPD which is below economic limit and since there are no other prospective pay zones, it is proposed to plug and abandon by setting a rock and cement bridge above perforations, shoot off 5½ casing and pull, fill hole with heavy mud with cement plugs in bottom and top of surface casing, erect a dry hole marker, clean up, level and abandon location.
