Dear Sir:

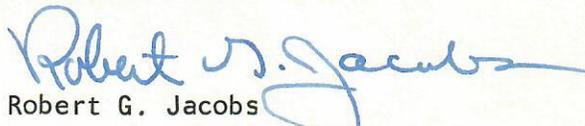

In answer to your inquiry regarding the status of the above captioned well, please be advised Paul Umbach is the operator and my reports are sketchy. It is my understanding that tubing and rods have been run and production tests in the "J" sand have been commenced.

I am this day forwarding your inquiry to Paul Umbach at his home address: 811 18th Street, Boulder, Colorado. ✓

Trust that this will be of some immediate help.

Very truly yours,

TOLTEK DRILLING COMPANY
