Paul H. Umbach
Flagstaff Road
Boulder, Colorado

Dear Mr. Umbach:

Before you can produce both the "D" and "O" sands in your Whitaker well in Section 9, Township 9N, Range 53 W, you are required to obtain approval from this office as is required under Rule 318.

You have been given approval to commingle "J" and "O" production but not "D" and "O".

I trust we will hear from you prior to producing the "D" sand gas.

Very truly yours,
Oil and Gas Conservation Commission

D.V. Rogers, Director
