3940 Dover Street  
Wheatridge, Colorado  
March 3, 1952Mr. C. D. Edmonson  
Denham Bldg.  
Denver, Colorado

Dear Mr. Edmonson:

Attached herewith are a descriptive sample log, core description, drill-stem-test data, drilling-time and bit record from your No. 1 Russell, 25-12N-45W, Sedgwick County, Colorado.

The formations penetrated and other data were as follows:

C. D. EDMONSON, NO. 1 RUSSELL  
SE SE NW Sec. 25, T.12N., R.45W.  
Sedgwick County, Colorado

Elev: 3529' grd.; 3538' KB.  
Comm: February 13, 1952  
Comp: February 26, 1952  
Contr: Transit Drig. Co.  
Csg: 10 3/4" @ 251' w 150 sx.

|                         |       |                   |
|-------------------------|-------|-------------------|
| Top Niobrara sh         | 2450' | (Schlumb measure) |
| " Ft. Hays ls           | 2850  | "                 |
| " Carlile sh            | 3075  | "                 |
| " Greenhorn ls          | 3035  | "                 |
| " "D" Sand              | 3236  | "                 |
| " "J" Sand              | 3348  | "                 |
| " Skull Creek sh        | 3452  | "                 |
| " "M" Sand              | 3578  | "                 |
| " Morrison sh           | 3760  | "                 |
| T.D., D & A in Morrison | 3782  | "                 |

No shows of oil or gas were encountered anywhere in the geologic column. Both the "D" and "J" sands were drill-stem-tested and after drilling to 3782 feet in the Morrison shale, the No. 1 Russell was recommended for abandonment on February 26, 1952.

Very truly yours

Karl M. Buchler, geologist
