Sterling, Colorado 80751

Dear Bill:

In your letter of December 20, 1967, you mention the McKenzie well, located in the SW SE, Sec. 13. This well was plugged and abandoned in 1961.

However, there is the McKenzie-Federal Land Bank, located in the NE SW of Section 13, which is still producing and operated by John Pivonka.

I have enclosed some production data and copies of reports from the wells. There has been no remedial work done on the producing well, according to our records.

Do not hesitate to contact us should you need further information.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

Frank J. Piro, Deputy Director
