

WSEH

Date Nov. 28/56

Pam Oil Co.

Gentlemen:

A review of our records indicates that we have not received the completion report on the following wells:

<u>Lease</u>	<u>Location</u>	<u>Field</u>	<u>County</u>
2 Kirk	18-9N-53 W	No. Mt. Hope	Logan
(Advised on June 18, 1956 that well had not been drilled).			
(would appreciate present status of well)			

We received your notice to abandon this well on _____, however, we must also have the completion report on our form OGCC-5, in order to close well file.

If this well has not been drilled to date, please advise...

According to the Rules and Regulations of the Commission, completion reports should be sent in within thirty (30) days after completion of a well. (3) copies for wells drilled on Patented or Federal land and Four (4) copies for wells drilled on State lands.

Some blank forms are enclosed for your convenience.

Your prompt attention to this matter will be appreciated.

Oil and Gas Conservation Commission

Leona Doucette

We wish to call your attention to Rule # 303 of Our Rules and Regulations, which states that 180 days after approval to drill, the approval becomes null and void and the intention to drill must be re-submitted.

We'll reapply with intention to drill when we get squared away
