**General Comment:**

On 2/15/2022 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Stormwater and erosion controls are needed to stabilize erosion within the western portion of the project area. Stormwater and erosion controls need to be selected, sized, installed, and maintained in place until stabilized with desirable perennial vegetation. Corrective action date: 3/30/2022- is extended to accommodate winter conditions.

See below, and attached photos for additional detail.

1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment Revegetation is progressing in portions of the project area where erosion is not occurring.  
Weeds need to be assessed during the active growing season.
