General Comment:

COGCC Inspection Report Summary

On Monday 2/28/2022 at approximately 1000, I, Inspector Scott Ramsey, conducted a follow up inspection at Caerus J24NW, at Location # 335058 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

Location and access road snow covered. Plowed.

C/A (labeling on storage tanks, staining and tank heater) have been completed. C/A (Access road culverts) could not be accessed due to snow cover. C/A (battery signage) have not been done.

During this inspection the following compliance issues were observed:

1. Lack of battery signage C/A date remains the same (9/17/2021)
2. New staining at well heads

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
