Re: 30-Day Notification Prior to Conducting a 5-Year Mechanical Integrity Test
Argenta Ute 2 SWD
NW, SE, Section 31, T34N, R10W
La Plata County, Colorado
EPA Permit No. CO20845-04426

Dear Mr. Wang,

In accordance with U.S. Environmental Protection Agency's (EPA) Underground Injection Control (UIC) Permit No. CO20845-04426, Part II, Section C, Condition 2, Hilcorp Energy Company (Hilcorp) is submitting the required 30-day notification prior to conducting a 5-year Mechanical Integrity Test (MIT) at the Argenta Ute 2 SWD (API No. 05-067-06164) in La Plata County, Colorado. The MIT is scheduled to occur **on March 16, 2022**, or sooner if needed, depending on EPA's availability to witness the test. If EPA plans to be available for the test, please let Hilcorp know at your earliest convenience.

Please note that your Hilcorp field contact will be Mr. Len Gordon and can be reached at 505-320-5824. Mr. Gordon will also be your best contact for coordinating any field-related arrangements prior to the test date.

Hilcorp will provide results of the MIT to EPA Region 8 as soon as possible, but no later than sixty (60) days following the date of the test.

Should any concerns or questions arise, please do not hesitate to contact me at (713) 757-5247.

Sincerely,

Mitch D. Killough
Environmental Specialist
