2

Project Name:
CR 17 & CR 34

Site Location:
40.224063, -104.905010

Date: 3/16/2022
Photographed By:
Tasman Geosciences

Photo No.
1

Direction Photo Taken:
South

Description:
Release location in ditch west of CR 17.

Photo No.
2

Direction Photo Taken:
Northwest

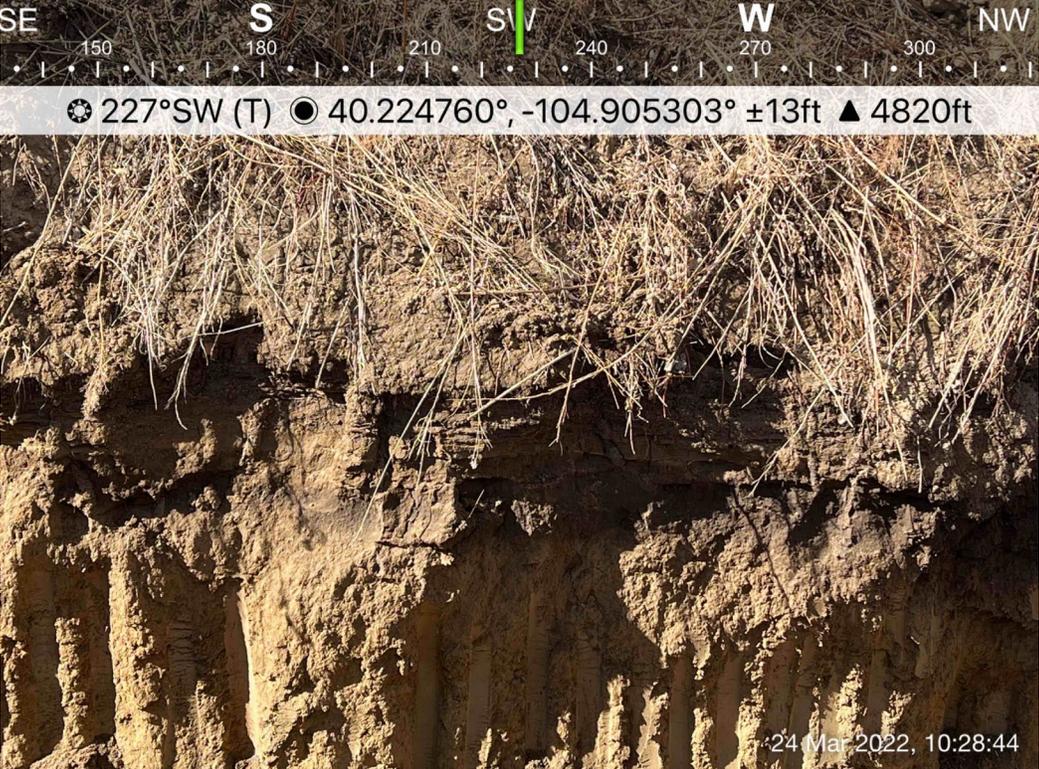

Description:
Release prior to hydrovac removal on south side of culvert.

Project Name: CR 17 & CR 34		Site Location: 40.224063, -104.905010	Date: 3/16/2022 & 3/24/2022 Photographed By: Tasman Geosciences
Photo No. 3			
Direction Photo Taken: East			
Description: Release prior to hydrovac removal at terminus of ditch.			

Photo No. 4			
Direction Photo Taken: West-Northwest			
Description: Looking northwest near terminus of ditch during excavation.			

Project Name: CR 17 & CR 34		Site Location: 40.224063, -104.905010	Date: 3/24/2022 Photographed By: Tasman Geosciences
Photo No. 5			
Direction Photo Taken: South-Southeast			
Description: Ongoing excavation.			

Photo No. 6			
Direction Photo Taken: Southwest			
Description: Weathered shale and sandstone of the Cretaceous Fox Hills Formation approximately 5 ft below ground surface in the ditch.			

Project Name: CR 17 & CR 34	Site Location: 40.224063, -104.905010	Date: 3/24/2022 Photographed By: Tasman Geosciences
---------------------------------------	---	---

Photo No. 7		
Direction Photo Taken: North		
Description: Sandstone of the Cretaceous Fox Hills Formation from the base of the excavation approximately 7 feet below the base of the ditch.		

Photo No. 8		
Direction Photo Taken: Northwest		
Description: Terminus of the ditch during excavation.
