COGCC Rules (check all that apply)

☐ 1101. Installation and Reclamation ☐ 1102. Operations, Maintenance, and Repair ☒ 1103. Abandonment

Comment: COGCC Inspector met with EOG contract personnel on location. Well (Nordstrom 1-9) has been plugged and abandoned; cut, cap and backfill work is completed. COGCC form 42 notice of start of plugging operations doc #402892103 received 12/08/2021. COGCC form 42 flowline pre-abandonment notice doc #402921034 received on 01/08/2022. All flowlines have been removed; wellhead flowline (approx 100' in length), dump and process flowlines have been removed. (3) historically abandoned flowlines were uncovered during excavation; all lines approx 20' in length were removed. Facility/ battery has been decommissioned; tanks and equipment removed. Excavation/ remediation work in response to historical release is in progress.

Corrective Action:

COGCC Comments

Comment	User	Date
As outlined on COGCC form 19 spill report Doc #402985326 received on 03/15/2022: While removing a Produced Water Vessel (PWV) at the Nordstrom 1-9 (Location ID: 321498), legacy suspected soil impacts were observed. The release became State reportable on March 15, 2022, due to the quantity of impacted soils excavated. It appears that equipment failure in the base or sidewalls of the vessel resulted in a release of fluids and soil impacts. The entire site is being decommissioned and will be reclaimed. More details will follow on a supplemental F27 submittal pending investigation.	maclarej	03/28/2022
