**DESCRIPTION OF IMPACT**

Impacted?	Impacted Media	Extent of Impact	How Determined
UNDETERMINED	SOILS	Unknown	Visually/Laboratory Analysis

**INITIAL ACTION SUMMARY**

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

The COGCC Orphaned Well Program (OWP) will plug and abandon the Lake/Brown House #1 well. If impacted soils are encountered around the wellhead or associated flowline, the contaminated soil will be excavated and removed for offsite disposal at a commercial disposal facility permitted to receive E&P waste. Soil sample(s) will be collected from the wellhead excavation, flowline path(s), as well as any other area likely to have been impacted by E&P Waste. Soil sample(s) will be submitted for laboratory analysis of Table 915-1 constituents.

**PROPOSED SAMPLING PLAN****Proposed Soil Sampling**

☒ Will soil samples be collected as part of this investigation? ( Number, type (grab/composite), analyses, and locations of samples ):

At the time of plugging and abandonment (PA), soil sampling will be conducted at the wellhead and end of the flowline per 900 Series Rules. Visual inspection and field screening of soils surrounding the wellhead and flowline will determine sample locations with grab samples collected from areas most likely to have been impacted. The number and location of grab samples selected to determine the horizontal and vertical extent of contamination will be submitted to an accredited laboratory for analysis of Table 915-1 soil parameters.

**Proposed Groundwater Sampling**

☒ Will groundwater samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

Groundwater samples are not expected to be collected as part of this investigation. If groundwater is encountered during the PA activities, a grab groundwater sample will be collected and submitted for analysis of Table 915-1 water parameters.

**Proposed Surface Water Sampling**

☐ Will surface water samples be collected as part of this investigation? ( Number, analyses, and locations of samples ):

Surface water samples are not expected to be collected as part of this investigation.

**Additional Investigative Actions**

☐ Additional alternative investigative actions described in attached Site Investigation Plan ( summary ):

Additional alternative investigative actions are not expected to be performed as part of this Site Investigation Plan.
