General Comment:

On 03/28/2022, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection on Berry Petroleum's Chevron I31 596 location in Garfield County, Colorado.

Records show a Form 9 (402936114) currently "in process" transferring ownership of wells and the Location from Berry Petroleum to Caerus Piceance LLC; Berry Petroleum remains responsible for the Location until Forms have been "approved". Inspection is being submitted to both Operators.

This inspection is a followup to #696201526, #696201775 and #402936114 to document compliance with the following corrective action:
 -Noxious weed management.

The following compliance issues were observed in this inspection:
 -Wildlife Protection BMPs

Refer to the "Reclamation" section of this inspection report for additional details.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

 TRANSECT RESULTS OF DISTURBED AREA% _____
 TRANSECT RESULTS OF REFERENCE AREA% _____
 TOTAL % OF DESIRABLE VEGETATION COVER _____
 VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____ I _____

Comment Previous inspections documented noxious weeds (Bull thistle, Musk thistle) established on the Location. Inspections required Operator to comply with 1003.f.

 Limited visibility due to snow cover prevented an accurate assessment of the reclamation area. One single bull thistle was observed, however residual noxious weeds from the 2021 growing season, and dense weed patches previously documented were not observed; ongoing noxious weed management appears to be occurring.

 Continue to monitor and manage Location for Undesirable Plant Species.
