The Idea #2 pit [Facility #: 257959] which is in the COGCC database does not exist. This pit was apparently permitted but the Idea #2 well was never drilled, and the pit was never built.

There are two pits located in the SW SW of Sec. 20-T2S-R53W. One pit [Facility #: 104591] is utilized by the Gulley #1 well [API: 05-121-09571], and a second pit [Facility #: 117572] is utilized by the Idea #1 well [API: 05-121-10159].

Facility #: 257959 should be removed from the COGCC database.

Comment: Updated pit location based on aerial photographs and (doc #880916). Schematic attached to August 2000 permit application suggests that pit was never constructed ('new pit' does not appear in aerials). S. Arauza 5/11/2016
