Mr. Wynn,

Attached is information on one well "Location" that is being transferred from Laramie Energy LLC to Black Hills Plateau Production (BHPP). I am notifying you of this transfer per COGCC requirements and as part of the process of completing Form 9s documenting this transfer.

BHPP has worked over the past 3 years to restore this location per COGCC requirements. There were no well facilities or equipment associated with the transfer. The well was plugged and abandoned, all equipment removed, and pits remediated.

Please let me know that you received this notification.

Best regards and keep staying safe,

Joe Jenkins, PG, CHMM, CPESC
