Comment: This location does not comply with Rule 1004. The location is dominated by annual, weedy vegetation (cheatgrass and Kochia). It appears as if there has been a significant amount of mulch applied throughout the location.

Some of the common reference grass species observed were Smooth brome, Orchard grass and Canada wildrye.

Corrective Action:	<p>Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.</p> <p>Final reclamation activities shall be complete no later than 11/14/22 or as soon as environmental conditions will permit. Operator shall make every attempt to perform additional reclamation activities during Spring 2022.</p>	Date	11/14/2022
