## **Best Management Practices**

<b>No</b>	<b>BMP/COA Type</b>	<b>Description</b>
1	Planning	Implement Mallard's safety program.
2	Traffic control	Speed limits will be enforced on lease roads.
3	General Housekeeping	Mallard will meet weed management targets during construction, drilling, production, and reclamation lifecycles.
4	Wildlife	Mallard will pre-clear all proposed disturbances according to CPW guidance meeting Migratory Bird Treaty Act (MBTA), Bald and Golden Eagle Protection Act (BGEPA) and Endangered Species Act (ESA) laws in protection of active nesting activities, observe CPW/USFWS requested protected buffers for active nesting species, and consult with CPW/USFWS as warranted.
5	Wildlife	Location is within Rule 1202.d. Pronghorn Winter Concentration Area. If well completions operations must occur between January 1 to April 30, prior to conducting the operations, operator will consult with CPW to determine site-specific measures to avoid, minimize, and mitigate adverse impacts to wildlife and the environment
6	Wildlife	Should operators occur during WCA timing (January 1 thru April 30) and significant number of pronghorns are identified in the area, Mallard will have a biologist periodically survey and monitor animal behavior to identify potential negative impacts from operational activities.
7	Wildlife	Mallard will limit the placement of extensive linear barrier features (i.e., fencing, surface lines, berms) that may impact Pronghorn movement and migration.
8	Storm Water/Erosion Control	Employ Mallard's Stormwater Management Program to protect soil resources, minimize erosion, identify pollutants, apply pollutant control measures, and conduct regular inspections.
9	Construction	Fencing will be 3 or 4 strand with the top strand height maximum height of approximately 42 inches, with the lower smooth strand without barbs at a height of approximately 18-inches.
10	Construction	Mallard will quickly excavate, install, and reclaim linear pipeline features that may impact pronghorn movement and migration.
11	Noise mitigation	Prior to the start of construction, Operator will evaluate the location for any new construction of occupied structures within 2,000 feet. If an occupied structure is identified, Operator will contract with a third-party noise expert to perform an analysis of the predicted noise levels.
12	Noise mitigation	Electricity will be brought to the location to power the facility. Use of electricity allows for installation of quieter equipment compared to older equipment such as diesel generators and/or natural gas compressors.
13	Noise mitigation	A quiet frac fleet will be used for completion operations.
14	Noise mitigation	Operator will comply with the maximum permissible noise levels specified in Rule 423.b.(1) and as outlined in Weld County Code Sec 21-5-435.
15	Noise mitigation	All trucks on location will be prohibited from idling when not in use to prevent unnecessary noise.
16	Emissions mitigation	Construction of pipeline infrastructure to provide takeaway of oil, natural gas, and fresh and produced water from the CDP development, eliminating truck traffic and emissions associated with hauling product from oil and gas development and limiting vehicle/wildlife interactions.
17	Drilling/Completion Operations	Mallard intends to perform simultaneous operations, consisting of facility construction during drilling and completions operations, to decrease the duration of impacts.
18	Interim Reclamation	All interim and final reclamation areas will be contoured and re-vegetated to a stable condition to restore natural habitats for wildlife species.

Operator Comments:

The Koloa Pad was approved (and is constructed) prior to the 1202.d High Priority Habitat rulemaking. Mallard is willing to commit to the BMP included in this sundry as protections that we have worked with CPW to develop. No sound walls are proposed for this location as there are no residential building units within 2,000 feet of the location. However, to protect the High Priority Habitat, Mallard is committed to the noise BMP also included in this sundry.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
