**General Comment:****COGCC Inspection Report Summary**

On Tuesday 5/17/2022 at approximately 1200, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Ferguson, at Location # 335386 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

C/A's (Erosion and stored equipment) have not been completed from previous inspection document # 700703383.

During this inspection the following possible compliance issues were observed:

1. Stored equipment (ECD is disconnected from tanks and gas)
2. Erosion on north side of location with sediment migration, choking out vegetation.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
