**General Comment:**

On 5/24/2022 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Control weeds. Due to the extent of the infestation a treatment plan is needed and multiple treatments will likely be needed. Seeding in treatment areas may be needed after infestation is controlled. Corrective action date: 6/30/2022

See below, and attached photos for additional detail.

1003a. Waste and Debris removed? \_\_\_\_\_

Comment Dense wood debris stockpiled around the edge of the project area. Wood debris can be reintegrated back to the reclamation area during final reclamation, only to the extent that it is beneficial to reclamation. Excess wood material will require removal and appropriate disposal. Areas where wood is piled are part of the project area and are subject to final reclamation reclamation standards.
