General Comment:

On 6/15/2022, Reclamation Specialist Trujillo conducted a final reclamation inspection at Utah Gas' Douglas Pass Unit 7713 location in Garfield County, Colorado.

The following compliance issues were observed during this inspection:
1004.a- Removal of surface equipment.

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

It was observed in this inspection that the revegetation of the Location has met 1004.c.(2) standards; desirable perennial vegetative establishment is uniform and reflective of the adjacent reference area. Historic aerial imagery shows access road pre-existed the Location, and is not subject to 1004 Final reclamation requirements.

It was also observed in this inspection that surface equipment (pipe risers) has not been removed from the Location. Well was abandoned 7/21/2016; pursuant to Rule 1004.a, all risers and surface equipment is required to be removed within 3 months of plugging a well; risers/equipment was required to be removed by 10/21/2016.

Perimeter fence equipment also requires removal for final passing.

Corrective Action:

Comply with Rule 1004.a and remove riser/surface equipment, as well as perimeter fence. Upon removal, submit date-stamped photo documentation attached to a FIR Resolution Form to show corrective action has been addressed.

Date **08/15/2022**
