General Comment:

On 6/28/2022, Reclamation Specialist conducted an inspection at Genesis Gas & Oil Colorado LLC's FGSU 33-42 Location in Rio Blanco County, Colorado.

The following compliance issues were observed during this inspection:

- Stormwater
- Final Reclamation

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules

VEGETATIVE COVER _____

Comment:

It was observed in this inspection that the Location has been constructed, and surface equipment (pipe/riser) was observed installed along the access road, however no wells have been drilled.

Work to maintain the Location and access road has not occurred.

All Form 2 and Federal "permits to drill" on file for the Location have expired; Form 2 #400473417 expired 4/10/2016, Federal Permit (doc. no 1828332) expired 7/31/2010.

Location is subject to Final Reclamation requirements. Submission of additional permits does not waive compliance with 1004 requirements- See "Notice to Operators: Interim Reclamation Procedures for Delayed Operations" dated January 5, 2017.

Corrective Action: **Comply with Rule 1004.a and conduct final reclamation of the Location and access road.**

Date **09/15/2022**

Overall Final Reclamation **Fail**

Well Release on Active Location ☐

Multi-Well Location ☐

Storm Water:

| Loc Erosion BMPs | BMP Maintenance | Lease Road Erosion BMPs | Lease BMP Maintenance | Chemical BMPs | Chemical BMP Maintenance | Comment |
|------------------|-----------------|-------------------------|-----------------------|---------------|--------------------------|---------|
| | | | | | | |

Comment: It was observed in this inspection that Stormwater and erosion control BMPs to control stormwater in a manner that minimizes erosion and degradation are missing or insufficient on the Location; erosion degradation due to runoff resulting in large soil movement and gully erosion on the slopes observed.

Corrective Action: **Comply with 1002.f and install stormwater and erosion control BMPs on the Location to manage stormwater in a manner that minimizes erosion and degradation. Install BMPs in accordance with good engineering practices, and maintain until the site receives a passing final inspection.**

Date: 07/15/2022

Pits: ☐ NO SURFACE INDICATION OF PIT
