General Comment:**COGCC Inspection Report Summary**

On Thursday 7/7/2022 at approximately 1100, I, Inspector Scott Ramsey, conducted a routine inspection at TEP CSF E pad, at Location # 418828 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

During this inspection the following possible compliance issues were observed:

1. Cut slope behind tanks shows signs of lack of stabilization and erosion.
2. Random debris.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
