SS2

boundary fence

SS1

SS8

SW8

SW9

SW10

retention pond excavation
perimeter 150', 2-4' excavated beneath pond bottom
1350 sq ft total, excavation floor 480 sq ft.

Elevated pH in retention pond samples determined not to be a result of the release,
but rather evaporative conditions that naturally elevate pH. The retention pond
continues to be a part of site infrastructure.
