Comment: A drone inspection was performed at the location in response to a final reclamation complete notice. Overlooking the site the vegetation appears to have established to reflect the surrounding reference area. The location should be further accessed on the ground to evaluate compliance of the final reclamation standards. It was observed that a perimeter fence remains around the location which must be removed in order for final reclamation to be complete.

Corrective Action:	<b>Comply with 1004 Rules. Remove fence once final reclamation is complete.</b>	Date	<b>09/01/2022</b>
