Mr. Jim McKee
Oil & Gas Commission
1313 Sherman St., Rm 721
Denver, Co. 80203

Dear Mr. McKee: *Jim*

534-0677

Upon reviewing the materials in the old file, it has been determined by our present operations manager that casing was run on this hole and that a perf. test was conducted.

It was at this time that Samedan Oil Corporation took over total control of the completion process. Therefore, for specific data on test and completion, any interested parties should contact Samedan. We were able to determine that Samedan ran into problems after we were no longer a party to the process and eventually had to plug and abandon.

We hope this amended report clarifies your files as it has our files. We appreciate your office bringing up the discrepancy in the records.

Yours Very Truly,

LeClair-Westwood, Inc.
