Comment: This location does not comply with Rule 1004. It appears the Operator has performed Final Reclamation activities with some desirable perennial vegetation observed. Additionally, some weedy annual vegetation was observed throughout the location that will need to be managed (e.g. Russian Thistle and Kochia). COGCC Staff observed that portions of the access road have not been reclaimed as road base/gravel was present. Refer to attached inspection photos.

Corrective Action:	<p>Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.</p> <p>Final reclamation activities shall be complete no later than 11/17/2022 or as soon as environmental conditions will permit.</p>	Date	11/17/2022
