Comment: This location does not comply with Rule 1004. COGCC Staff observed four (4) water monitoring wells on location from Remediation Project #4312 (reference doc#1984154). If the monitoring wells are no longer in use, recommend abandonment and permit release with Division of Water Resources. Staff also observed annual weedy vegetation (e.g. Kochia) within the disturbed area that was not reflective of reference area vegetation. Refer to attached inspection photos.

Corrective Action:	<p>Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.</p> <p>Operator shall contact COGCC Environmental Staff Chris Canfield to determine status of monitoring wells.</p> <p>Final reclamation activities shall be complete no later than 11/17/2022 or as soon as environmental conditions will permit.</p>	Date	11/17/2022
