General Comment:

On 8/25/2022, Reclamation Specialist Trujillo inspected Utah Gas Corp's Federal-Carbonera #1-2 Location in Garfield County, Colorado.

The following compliance issues were observed during this inspection:
-Stormwater

Refer to the "Location" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Location

Lease Road:			
Type	Access		
comment:	It was observed in this inspection that stormwater, erosion control and stabilization BMPs are missing or insufficient along entire access road- erosion degradation and sediment transport evident. Road provides access to Locin Oil Corp's Government 1, Government 2, as well as Utah Gas Corp's Federal Carbonera 1-2 Locations. Corrective action is being provided to all 3 Locations.		
Corrective Action:	Comply with 1002.f.; Implement and maintain BMPs to control stormwater runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation on access road. Ensure controls are implemented in accordance with good engineering practices and maintained in proper functioning condition; regrading alone will not be sufficient to stabilize road and manage runoff.	Date:	09/13/2022

Comment	User	Date
Collaborate with LOCIN OIL CORPORATION regarding necessary work to comply with 1002.f along access road, between the turn-off of CR 201 and the Fed.-Car. 1-2. Locin Oil remains responsible for maintenance of road leading north of the Fed.-Car. 1-2, to the Government #1 and #2 Locations.	trujilloam	08/29/2022
Refer to inspection nos. 696204016 and 696204018 for additional details.
