RE: #24-36 State-Williams
Township 12 North - Range 54 West
Section 36: SE/4SW/4
Logan County, Colorado

Gentlemen:

We are in receipt of your notification requesting the Form 4, Form 5, logs and cement verification for the above-captioned well. We regret this was not done in a timely fashion by Exeter Drilling Northern. This well was a turn-key to them and they were supposed to perform this function.

★ At this time, we enclose everything requested except the cement verification. We have requested that form from Exeter today, as being a turn-key, we only received one (1) invoice for everything and not individual invoices from each service company.

If there is anything else you need, please advise.

Sincerely,

Kenneth A. Milliard
