Operator Name: CHEVRON USA INC - 16700
Location #314707

Photo 3: Photo an overview of the Location. Photo shows vegetation is predominantly a Noxious Weed (Halogeton) monoculture; desirable perennial vegetative germination/establishment not observed.

Inspection Photos
Operator Name: CHEVRON USA INC - 16700
Location #314707

Photo 4: Photos 4-5 are examples showing BMPs to manage stormwater runoff in a manner that minimizes erosion, degradation and sediment transport are missing or insufficient; erosion degradation evident throughout slopes of the Location; erosion logs (straw wattles) have not been maintained in proper functioning condition, and appear insufficient alone in order to stabilize the soils.
