VEGETATIVE COVER _____

Comment: This location does not comply with Rule 1004. Reclamation rules require reclamation activities to be conducted within three months of plugging on cropland. Well was plugged 03/31/2018. During this inspection, COGCC Staff observed that the reclaimed area was not reflective of reference area perennial crop (e.g. sugar beet). Staff observed non-uniform vegetation cover resulting in bare soil and annual weedy vegetation throughout the disturbance area. Refer to attached inspection photos.

Corrective Action:	Comply with Rule 1004. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production. Provide documentation within the FIR Resolution form of when the corrective action work will be completed and provide date and documentation of coordination with the surface owner. The corrective action date is the date the location was observed out of compliance.	Date	09/14/2022
