Comment:

Corrective Action:	<p style="color: blue; font-size: small;">This location does not comply with Rule 1004. Reclamation rules require reclamation activities to be conducted within twelve months of plugging on non-cropland; well was plugged 05/06/2019. It does not appear any reclamation work has been performed since last inspection. Oil and gas equipment still remains on access road; perimeter fencing remains throughout location and is considered debris; the access roads and location have not been contoured or regraded, or revegetated with desirable species; annual weedy vegetation including but not limited to kochia and russian thistle were observed; and access roads have major gully erosion issues and are not stabilized. Refer to attached inspection photos.</p> <p style="color: red; font-size: small;">Comply with 1004 Rules. Corrective action date is being back dated to when all final reclamation activities should have been completed.</p>	Date 05/06/2020
