

September 27, 2022

Mr. Rick Allison  
Colorado Oil and Gas Commission  
1120 Lincoln Street  
Denver, CO 80203

Subject: **Noncompliance Notification & Discharge Monitoring Report for August 2022 for Wellington Operating Co. – COGCC Permit Numbers 281818, 281824, & 416077**

Dear Mr. Allison:

Attached please find the Discharge Monitoring Reports (DMRs) for the subject Wellington Operating Company (WOC) facility for August 2022.

**The facility did operate and discharge treated wastewater during the month of August 2022. A compliance sample was collected at Outfall 001A on August 23<sup>rd</sup> and submitted to PACE Laboratory, analyzed, and the laboratory data is attached. All parameters at Outfall 001A were in compliance. An additional sample was collected at Outfall 001A on August 18<sup>th</sup>. The additional samples were only analyzed for all monitored parameters except Radium 226 and 228 due to this parameter being dropped by ALS. The laboratory results for the additional samples indicate that the sample was in compliance with the discharge limits at Outfall 001A and the laboratory data is attached.**

**Monthly samples were collected from the existing five monitoring wells on August 1, 2022, analyzed, and the laboratory data is attached. All sample parameters were within the permit limits.**

**An additional sample was collected on August 18th and analyzed for boron, barium, sodium, TDS, chloride, fluoride, and sulfate. All sample parameters were within the permit limits.**

**As requested, WOC has prepared and attached a copy of a water balance sheet for the Wellington Produced Treatment facility and the Wellington Muddy Sand Stone Unit – South Battery for July 2022. This water balance is being submitted voluntarily and is not required by the current discharge permit.**

**WOC is also submitting a summary of the permeate data for conductivity for the combined discharge water from the reverse osmosis system.**

Mr. Randy Evans is the current operator in responsible charge for the facility.

If you have questions regarding facility operations, please contact Randy Evans at cell 970-402-0418;  
email: [rgrevans477@gmail.com](mailto:rgrevans477@gmail.com).

Sincerely,

A handwritten signature in black ink that reads "Randy Evans". The signature is written in a cursive, slightly slanted style.

Randy R. Evans  
Operator in Responsible Charge
