Notice to do work ☐ Land: Fee and Patented ☒ X
 Report of work done ☐ State ☐ Lease No. _____

Colorado State Logan County Cliff Field

1 (Well No.) Rice (Lease) NW NW (1/4 Sec.) 33 (Sec.) 12N (Twp.) 54W (Range) 6th P.M. (Meridian)

The Well is located 660 Ft. (N) of Section Line and 660 Ft. (E) of NW (XX)

Section Line Corner of Section 33.

The elevation above sea level is 4624.2 Ft. GL

Details of Plan of Work: (State names of and expected depths to objective sands. Show sizes, weights, and length of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

We plan to run 150' of 9-5/8" OD casing and circulate cement to the surface. It is then planned to drill to the "D" Sand, core the same and drill stem test. If commercial production is encountered, 5-1/2" OD casing will be set through the pay section, which will be selectively perforated and completed for production.

If the "D" Sand does not prove productive, the same procedure will be followed in the "J" Sand.
