General Comment:

On 10/10/2022, Reclamation Specialist O'Malley conducted an interim reclamation and stormwater inspection at TEP Rocky Mountain LLC's GGU Fed (MDP #15 Pad)/34D-29-691 Location #417787 in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

- Noxious weeds

Refer to the "Location," "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Areas of the location not needed for production, or no longer in use have been reduced and reclaimed. Interim areas are vegetated with perennial grasses including western wheatgrass, bluebunch wheatgrass (native) and crested wheatgrass (introduced). Desirable perennial vegetative establishment is progressing towards 1003 standards. Revegetation is in process.

 Refer to the "Location" section of this inspection report for weed control corrective action.

Comment: At the time of this inspection, stormwater and sediment control BMPs have been installed and appear to be in proper functioning condition. Areas of concentrated flow (slope drain, sediment trap inlet/outlet) have been lined with geotextile fabric and smooth river rock. Smooth rock can accelerate water flow around rocks and may contribute to degradation. BMPs shall be maintained until the facility is abandoned and final reclamation is achieved pursuant to Rule 1004.
