**General Comment:**

on 10/18/2022 COGCC staff, Kris Neidel Inspected the Surprise Damfino location. At the time of inspection the location had finished drilling new wells, Rig was moved off and the location was in the process of preparing for completions. Weather was 55 degrees and dry, it is not believed that the area had received rain in the last week. The following was Observed at the location; trash was observed all over the pad, spilled powdered chemicals, spilled cuttings, improperly sorted cuttings, improperly stored chemicals, piles of trash containing unknown fluids, torn liners where mud tanks had been with pooled fluids, tracked chemicals, stained soil, tracked stained soil, stored hoses leaking fluid, puddles of water, there is a pump pushing fluid via hose 1.3 miles to the Spicer location (facility ID 467526). General Bad housekeeping at every part of the pad. Corrective Actions: remove all trash, properly categorize and dispose of waste such as: fluid, chemicals, storage bins and drums, properly store cuttings and dispose of per waste management plan, all areas of pad that have stained solid (of unknown fluids) should be properly disposed of and documented with confirmation soil samples. Surface is BLM. See Attached Photos for details.
