1580 Logan Street, Suite 380  
Denver, Colorado 80203

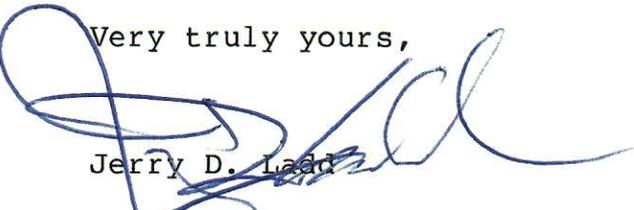

Gentlemen:

Your postcard of July 11, 1985 requested drillstem tests for the #1-9 UPRR Linnebur in the center of the SE/4 SW/4 of Section 9-T3S-R59W, Adams County, Colorado.

Eureka Oil Company is the successor by name change to Ladd & Lukowicz, Inc. Approximately six months ago we disposed of all of our abandoned well records for the State of Colorado in the belief that all appropriate forms and data had been filed with the State of Colorado. We did, however, maintain our drilling report records, and enclosed is a photocopy of our internal drilling report for December 18, 1981, which includes the results of DST #1. I do not believe that any more than one DST was run in this well.

Hopefully this will fulfill your request. Again, we apologize for not having filed this information on a timely basis.

Very truly yours,

  
Jerry D. Ladd
