**Inspected Facilities:**

Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
322318	LOCATION	AC			-	WEST SALT CREEK-FEDERAL-66S103W 7NESW	RI

**General Comment:**

On 12/5/2022, Reclamation Specialist Trujillo attempted to inspect D & G ROUSTABOUT SERVICE's West Salt Creek-Federal 1-7 Location in Garfield County, Colorado.

For safety reasons, inspector did not access the Location; Rig observed onsite- Form 42 #403241057 state plugging operations are ongoing.

This inspection is a followup to #696204012 to document compliance with the following corrective action:

- Equipment, weeds, waste and trash requirements
- Secondary containment

No resolution has been submitted by the Operator stating corrective actions have been completed, therefore original corrective action and dates remain applicable.

Refer to the "Location" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**Location**Overall Good: ☐

Emergency Contact Number:

Comment: Corrective Action: Date: **Good Housekeeping:**

Type	WEEDS		
Comment:	<p>Previous inspection observed Undesirable weedy plant species observed establishing on the working pad areas of the Location, and around the production equipment, including wellhead; this is considered a fire hazard. Noxious weeds (Bindweed) also observed establishing on the Location. Inspections required Operator to comply with Rules 606 and 1003.f.</p> <p>No resolution has been submitted by Operator stating CA has been addressed; CA remains applicable. Refer to inspection #696204012 for additional details.</p>		
Corrective Action:	Comply with Rule 606 and Rule 1003.f. Implement BMPs to prevent further spread and establishment of weeds on the Location, and to prevent weed/plant establishment around production equipment.	Date:	09/13/2022

**Berms**

Type	Capacity	Permeability (Wall)	Permeability (Base)	Maintenance
Comment:	<p>Previous inspections observed vegetation established within the base and walls of the secondary containment, rendering the permeability of the containment insufficient; vegetation establishment compromises the integrity and permeability of the containment BMP. Inspections required Operator to maintain BMP to ensure containment integrity is not compromised.</p> <p>No resolution has been submitted by Operator stating CA has been addressed; CA remains applicable. Refer to inspection #696204012 for additional details.</p>			

Corrective Action:	Maintain BMP to ensure containment integrity is not compromised; remove vegetation established within base, and on walls, of the containment BMP. Ensure containment is sufficient to contain 150% of the volume of the tank.	Date:	09/13/2022

Comment:

Plugging operations in process; Pursuant to Rule 911, a Form 27 is required for closure of an O&G Facility- including well facilities. NW EPS including within inspection report for notification purposes.

Location is Fee Surface, Fed Minerals. Pursuant to 1004.a requirements, all debris, abandoned gathering line risers and flowline risers, and surface equipment shall be removed within three (3) months of plugging a well, and all reclamation work including, but not limited to, compaction alleviation, recontouring/regrading and revegetation activities shall be completed within 12 months on non-cropland.

A follow-up inspection will be conducted to determine compliance with Rules.
