API: 071-07085 | Date: 12/12/2022

## Inspection Photos

**Photo 1.** Facing south toward the access road stream crossing. It appears a recent storm event had overtopped the crossing. The two culverts are not sufficient to handle storm events. Previous corrective action not completed.

API: 071-07085 | Date: 12/12/2022

## Inspection Photos

**Photo 2.** Facing south toward the access road stream crossing outlet side. There is no bank stabilization at the outlet side. Recent dozer work was performed in this area.

API: 071-07085 | Date: 12/12/2022

## Inspection Photos

**Photo 3.** There are two culverts installed at the stream crossing. This appears to be inadequate as the prior cement culvert shown in the photo on the right had 3 large culverts.
