Ginther, Warren & Company  
2438 Bank of the Southwest Bldg.  
Houston 2, Texas

Attention: Mr. R. E. Keen

Gentlemen:

Reference is made to your U.P. R.R. -Noonen #3 well, located in the SW SW, Section 13, T-3S, R-59W, Adams County, Colorado.

The first and simplest matter we would like to have taken care of is to find out if the #2 and #3 is a single lease, or must the monthly production be separated.

The second matter deals with violations with regard to the specific well mentioned above. As you probably know, the well was commenced in violation of our Rules and Regulations, since no approval was obtained prior to spudding, and it appears that the violations have now been compounded. Rule 306, page 11 of our Rules and Regulations, states, among other things, that within thirty days after the completion of any well, a well completion report (Form 5) must be filed; and Rule 311, page 12 of our Rules and Regulations states, among other things, that a certificate of clearance (Form 10) shall be filed as soon as practicable.

Your prompt attention to these matters will be greatly appreciated.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

William R. Smith, Senior Petroleum Engineer
