Location Name: GMU-66S93W Number: 35NWSW County: \_\_\_\_\_

Qtrqr: NWS Sec: 35 Twp: 6S Range: 93W Meridian: 6  
W

Latitude: 39.481160 Longitude: -107.749820

#### FACILITY - API Number: 05-045- -00 Facility ID: 334828

Facility Name: GMU-66S93W Number: 35NWSW

Qtrqr: NWS Sec: 35 Twp: 6S Range: 93W Meridian: 6  
W

Latitude: 39.481160 Longitude: -107.749820

### CORRECTIVE ACTIONS:

2 CA# 164115

Corrective Action: Remove pig launcher/receiver, associated road and turn-around and reclaim in accordance with 1004 rules.

Date: 11/25/2022

Response: CA COMPLETED

Date of Completion: 09/01/2022

Operator Comment: As described in the associated Form 4 final reclamation sundry notice (Document # 403143264), the pig launcher/receiver and associated access will be removed and reclaimed when the pipeline is abandoned in the future. There are no plans to abandon the pipeline currently, as it services the K35NW pad (Loc. ID 334942) upstream and the I3B (Loc. ID 334911) and A10WB (Loc. ID 334921) well pads downstream. The 8" gas line runs

from the K35NW pad to the Pumba Compressor Station. All portions of the line specific to the L35 location (risers, etc.) have been removed. The pig launcher/receiver is necessary for routine pipeline maintenance to maintain the infrastructure in proper functioning condition. The 150-foot road spur and turn-around are needed for pig launcher access. Caerus requests concurrence from the COGCC that this road section and the pig launcher are associated with the pipeline, not Location ID 334828.”

COGCC Decision: \_\_\_\_\_
