CORRECTIVE ACTIONS:

1 ☒ CA# 164116

Corrective Action:

Date: 11/17/2022

Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.

Operator shall contact COGCC Environmental Staff Chris Canfield to determine status of monitoring wells.

Final reclamation activities shall be complete no later than 11/17/2022 or as soon as environmental conditions will permit.

Response: CA COMPLETED

Date of Completion: 11/17/2022

Operator Comment: Part 1 - In response to the Corrective Action associated with the monitoring wells observed during COGCC's field inspection on August 17, 2022, following discussions with Chris Canfield, PDC conducted a field investigation and desktop review. Based on our findings, PDC confirmed that the monitoring wells observed during the inspection are not artifacts of the referenced and closed Remediation Project #4312. The wells are in no way related to any historical activities at the Edstrom 24-8 tank battery and were newly installed by a different Operator. The wells associated with Remediation Project #4312 were decommissioned in 2008 by the Operator in Responsible Charge at the time of project closure. Please see the attached Figure and Photo Log documenting photographs taken in the field on September 2, 2022. "Wells" were then removed by Sept. 30th.

Part 2 - The rest of the CA has been addressed and work is now complete. Will continue to monitor. CA's completed.

COGCC Decision: Approved pending re-inspection

COGCC Representative: Approved pending re-inspection of this FIR resolution acknowledges the document was received. It is not an acknowledgement that the corrective action has been passed. A field inspection will be conducted at a future date to evaluate compliance with COGCC standards.
