RE: Tiger Oil Company
#1-33 UPRR-Lewton
C SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 33, T. 3 S.,
R. 59 W.

Gentlemen:

On July 16, 1974, a field inspection was made, by the under-
signed, of the above referred-to well. This well, drilled as a dry hole by your
company, was plugged and abandoned on October 17, 1971. The well is leaking
both saline water and gas at the surface, and has formed a pool of water approxi-
mately 6-8 feet in diameter. The landowner, Mr. Lewton, Has just cut his
wheat and the well site is readily accessible. ^h

We request that you take immediate action to re-plug and/or per-
form remedial work necessary to stop the leaking. After the work is finished,
please submit a OGCC Form 4 for the well file, showing the detailed work that
was performed.

If you have any questions please feel free to contact this office.

Very truly yours,

James A. McKee
Senior Petroleum Engineer
