From: W. R. Smith  
Re: M. R. Voltz - R. L. Christian #1 Plugging

I visited subject well located in Section 12, Township 16 South, Range 66 West, this date to inspect plugging as outlined in Mr. Goldstein's letter of March 24, 1959.

The hole previously referred to has been filled (probably with a shovel) and no other incication of an unplugged hole is apparent.

Although the location leaves much to be desired, I believe the well is now properly plugged per request of this office.
