Comments:

The former ROCKY MOUNTAIN FUEL E 4 well (API: 05-123-09285) was P&A'd on March 24, 2006, as identified in the Form 6 Document Number 1968301. On April 1, 2021, WSP conducted a final reclamation inspection for the former ROCKY MOUNTAIN FUEL E 4 well pad (Location ID: 406730) and has determined that the site is in compliance with final reclamation requirements per COGCC Rule 1004. The former ROCKY MOUNTAIN FUEL E 4 well is located in a residential subdivision. The location was over excavated for wet and dry utilities, road installs and homebuilding activities. Under the operational control of the developer the well pad and tank battery have been reclaimed. The tank battery had road base removed and topsoil imported. The tank battery was located 0.28 miles north of the P&A'd well site and also located within the residential subdivision. WSP personnel located the P&A wellhead location using a handheld Trimble (R1) Global Positioning System (GPS) unit and latitude and longitude coordinates obtained from the COGCC online database. Photographs of the P&A location were taken facing each cardinal direction from the P&A wellhead location. The photographic log is included within the attached document along with associated site maps.
