

February 13, 1964

Mr. Ed Lesh  
P.O. Box 99  
Pierce, Colorado 80650

Dear Mr. Lesh:

In response to your inquiry regarding the recompletion of the No. 2 Gertrude L. King well, Sec. 22, T-8N, R-66W, Pierce field, Weld County, Colorado, as a water disposal well, we have just received copies of the tour reports made out by Miers Well Service Company. These reports indicate the bridge plug was set on 11/3/59, and the Entrada was perforated 11/3/59. Subsequently, fracing, perforating, and completion was accomplished in continuous work operations ending on 11/10/59.

We are satisfied that these reports substantiate the report of recompletion originally submitted December 7, 1959, and hope they satisfy your inquiry.

If you have further questions, please contact us.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

William R. Smith, Deputy Director
