COLO. OIL & GAS CONS. COMM.

Dear Dave E.,

Enclosed are copies of both your recent "FMA REQUESTS".
Bruce Madden AKA Mountain Energy sold these properties in July 1988
to B & M Oil Co., Inc, P.O. Box 333, Hayden, Co 81639.
The federal wells (#1-22 USA; #1 Federal) were plugged with federal
approval in 1989, however due to surface clean up not
completed this status is still pending. The gas wells
(#2 and #1 Voloshin-Kowach) are still shut in waiting on a market
which I believe will happen in late 1990. Please put
these free lease wells under the blanket bond of B.G.
CANNON AKA B & M Oil Co.

JOHN S. → An attorney, Mr ROGER I. GERRARD, of 11 West Victory Way,
Suite 8 (P.O. Box 1382), Craig, Colorado 81626 "handed" all the
paperwork, which he says he sent to you. I personally
doubt that he did the proper paperwork, however he is Mr.
Cannon's attorney.

The Cannons seem to be good, honest folks, however
their attorney may be somewhat uninformed about procedures.
Please send the Cannons the Sundry Notice (Form 4) forms and
instructions so that they can comply in the future... they
don't have any forms, believe it or not!

Thank you for your understanding and assistance. Yours truly,
Albert P. Geyer
