CORRECTIVE ACTIONS:

1 ☒ CA# 166973

Corrective Action: Install bull plug on drain line.

Date: 01/22/2023

Response: CA COMPLETED

Date of Completion: 01/25/2023

Operator Comment: The attached finding is for a drain line on a tank ... this is not the same as a loadline. The drainline on this tank has a valve that is not leaking and is securing the contents of the tank. Rule 603.i applies only to loadlines ... not drainlines.

COGCC Decision: **Not Approved**

COGCC Field Inspection Unit Staff have witnessed trucks loading fluid from tank drain lines.

COGCC Representative:	Operator response of "Corrective Action Completed" is a notification to the State that the corrective action has been addressed in its entirety; The FIR Resolution form: "CA Complete" is not the correct forum to address alleged factual errors.
