## COGCC Inspection Report Summary

On Monday 2/6/2023, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Circle B1, at Location # 335001 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

Some C/A's from previous inspections document # 700703380 have not been completed.

During this inspection the following compliance issues were observed:

1. Stored/unused equipment remains from previous inspection.
2. Holes in tank secondary containment.
3. Two different emergency contact number on tank at well heads.
4. Well head signage is faded and some is illegible.

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
