Taylor,

I will be fall seeding these locations, most likely, as spring/summer seeding is rarely successful for me.

Thanks,

**April Stegall**

Thank you, April.

I appreciate the table with associated HPH overlaps. I'm not seeing any 1202.c. Greater Sage-Grouse Lek Site buffer overlaps, so CPW does not have any major concerns with these activities. Furthermore, given the winter that we're having, I'm assuming reseeding work likely won't be able to occur until late spring/early summer? If that is the case, the lekking season for grouse should be wrapped up and disturbance associated with these reseeding efforts will be minimal. Let me know if you have any questions or I can help with any other information.

Thank you,

Good Morning Taylor,

Please see the table below for HPH overlays in regards to Wexpro's seeding locations this year:

Well name	API	HPH
Ace 7	05-081-05480	Greater sage grouse general habitat management area
Ace 10	05-081-07281	Greater sage grouse general habitat management area
BW Musser 17	05-081-06177	Greater sage grouse general habitat management area
CARL ALLEN 14	05-081-05481	Density habitat (ALL), Greater sage grouse priority habitat management area
F WILSON 7	05-081-05553	Greater sage grouse general habitat management area
F WILSON 9	05-081-05556	Greater sage grouse general habitat management area
G KUYKENDALL 10	05-081-06661	Greater sage grouse general habitat management area

IRISH CREEK 11-21	05-081-06924	Greater sage grouse priority habitat management area, density habitat (ALL)
JC DONNELL 10	05-081-06136	Density habitat (ALL), Greater sage grouse priority habitat management area
WB LASHER 6	05-081-07128	Greater sage grouse general habitat management area

Thank you!

Hi April,

The API numbers are not being recognized when I try to zoom to them in the COGCC webmapper tool. I'm wondering if you could provide a table with the overlapping CPW High Priority Habitats for each location? I don't see any big concerns with these activities unless they are very close to a sage-grouse lek or known raptor nest location.

Thanks!

Taylor,

Per COGCC rules, I'm seeking your approval for the following actions that will require a form 4 submittal for Wexpro Company's seeding project located in High Priority Habitats:

- Ace 7 (05-081-05480): reseeding of the final reclamation areas due to insufficient desirable vegetation
- Ace 10 (05-081-07281): reseeding of interim reclamation areas due to insufficient desirable vegetation
- BW Musser 17 (05-081-06177): reseeding of the final reclamation areas due to insufficient desirable vegetation
- Carl Allen 14 (05-081-05481): reseeding of the final reclamation areas due to insufficient desirable vegetation
- F Wilson 7 (05-081-05553): reseeding of the final reclamation areas due to insufficient desirable vegetation
- F Wilson 9 (05-081-05556): reseeding of interim reclamation areas due to insufficient desirable vegetation
- G Kuykendall 10 (05-081-06661): reseeding of the final reclamation areas due to insufficient desirable vegetation
- Irish Creek 11-21 (05-081-06924): reseeding of the final reclamation areas due to insufficient desirable vegetation
- JC Donnell 10 (05-081-06136): reseeding of interim reclamation areas due to insufficient desirable vegetation
- WB Lasher 6 (05-081-07128): reseeding of interim reclamation areas due to

insufficient desirable vegetation

All areas will be drill seeded and crimped with straw mulch for moisture retention. In areas where drill seeding is not possible, seed will be broadcast, doubling the application rate.

Form 4's will be submitted upon your approval.

Thank you,

**April Stegall**
